General Hazen's Views of the War

From the New York Sun

The Editor of this paper has a private letter from a distinguished American officer who [illegible] King William's Headquarters since the investment of Paris General W B Hazen The letter is dated at Versailles Oct 14 and contains much [illegible] that will be of interest [illegible] of the war which has lately been waged [illegible] that will be of interest [illegible] [illegible] from an experienced and able soldier [illegible] General Hazen visited the battle field of [illegible] which he says was not a very bad [illegible] after many of our battles surpassing [illegible] Battles in this country [illegible] has little similarity [illegible] troops do not take up fixed positions [illegible] and [illegible] but seem to be [illegible] all the time The field showed no [illegible] trenches of [illegible] but scattering graves [illegible] the whole field which is five or six miles in extent These usually contained but a soldier, although sometimes two or three are buried together

General Hazen says further "The country from [illegible] to near Paris shows very few signs of war scarcely the signs of camps and the whole country was rich with the crops ready for harvest [illegible] the people were engaged as if nothing unusual was taking place [illegible] evidence anywhere of want [illegible] the Germans [illegible] and transportation were regularly taken, of course when needed but the abundance of the former was not materially affected by the requisitions About Paris the aspect is quite different The investing zone is about five miles wide and contains a large number of villages and some large towns like Versailles The people have nearly all left these places so that there are ample quarters for five times the number of troops that occupy them

The system of posting of corps [illegible] lines as with us The advance posts the only troops really in position and under arms are merely broken pickets or occasional posts regulated by the ground so as to observe every movement of the enemy In the rear in the first villages are some regiments and getting toward the outer position of the zone, at points convenient for quartering and moving troops in any direction are masses of soldiers *Of [illegible] has made considerable progress before it meets with much opposition.* The Prussians have made no works, and do not seem to have any guns in position but they know that each day reduces the number of rations in Paris a number that cannot be increased [illegible] *the real problem of the siege*

[illegible] that the Prussians brought with them not one tent over coat or blanket They meant war and success and have accomplished their purpose *Their [illegible] the smallest possible* about like ours when we (General Sherman's army) reached Savannah They left Prussia in the condition to which our soldiers came after breaking themselves down by carrying all sorts of unnecessary things They had little staff and no lumbering ambulance trains but an ample supply In fact they were not tangled with an immense staff top hamper *[illegible] and they [illegible] perfection —that perfection which brings defeat*

In this last paragraph the reader will see one of the most important reasons for the practical superiority of the German over the French soldiers in the field It is worth whole columns of communications that we have seen on the *rationale* of the late campaigns

Murder as a Remedy for "Ruin"

We find the following well written article in an Eastern journal

The assassination of Mr A P Crittenden of San Francisco nephew of the late John J Crittenden of Kentucky and one of the foremost lawyers of the Pacific coast is the last and lowest example of the practice of murder as a cure for pretending ruin The assailant in this case was a female high flyer such as perhaps no country but California could produce She had ruined and bankrupted one husband who after years of infatuated devotion to her had committed suicide from a sense of shame for her character and conduct She had then married again, been divorced and married again in California went to Mexico and then to New York as a public adventuress and succeeded confederated with sharpers in numerous desperate crimes returned to Virginia City, and opened a hotel captured Crittenden, and won him from his fidelity to his family marched through the street waving the Confederate flag daring any man to raise the federal flag in her presence and shot at one who did so was defended by Crittenden and, through his influence was acquitted, went upon the stage and failed shone at balls and theaters captured a rich old lover named Schneider and married him, finding, after six weeks of marriage she could not get his money, got a divorce and a few days after committed the murder of Crittenden under peculiarly atrocious circumstances His wife and daughter had been absent for the summer months in the Atlantic States, and Crittenden with his two sons, one of 25 and the other a bright boy of 12 years of age had come up from San Francisco on a steamer to Oakland, where he was to meet the absent ones whose arrival was expected by the train His assassin Mrs Schneider *alias* Fair, *alias* etc, disguised armed and heavily veiled, accompanied him on the boat to the place of meeting [illegible] kissed his wife and daughter [illegible] children [illegible] each other and their returning mother [illegible] as soon as the steamer had started, and the family were pleasantly seated around their father on an upper deck walked deliberately up to him, and, before her intention could be suspected and [illegible] quickly that but one saw [illegible] a pistol within two feet of his right breast the ball entering with fatal effect Mr Crittenden sat for a moment as if astounded, rose to his feet, and fell unconscious to the floor He died the next day

Having [illegible] through the crowd on the [illegible] at first apparently intended [illegible] but when accused of the crime with [illegible] *[illegible]* Yes [illegible] and my child and I intend to kill him Is this a sample of the class of women who [illegible] plate of their ruin as a plea for assassination? A woman who has taken all [illegible] and slews of [illegible] continent [illegible] doubtless [illegible] sustained no other real grievance at the hands of Crittenden than his refusal to abandon his [illegible] Of course the lady [illegible] simulated insanity and [illegible] a glass [illegible] of helping on her future plea A high flyer who has perpetrated so much [illegible] as this woman [illegible] is utterly incapable of becoming insane [illegible] [illegible] plea should [illegible] the fate of [illegible] [illegible]

In [illegible] with the military execution of armed peasants in France not wearing uniforms some foreign newspapers think it but fair to remind the Prussians of an unrepealed law of their own dated August 1813 in which it was enacted that the Landsturm should not wear any uniform [illegible] dress that they might not be recognized and hunted [illegible] the enemy that when there was [illegible] the nature of the contest sanctified all means employed in it and that it was the duty of the Landsturm to deprive the enemy of all facilities for invasion and retreat, to cut off his supplies, posts and recruits, suppress his hospitals attack him by night harass and not let him sleep and destroy both single soldiers and detachments wherever it was found possible

[DISPATCHES TO THE OREGONIAN

EASTERN DATES TO NOVEMBER 25

Skirmish near Verdun

HAVRE Nov 22—Yesterday a column of [illegible] [illegible] advancing from [illegible] along the north bank of the Seine [illegible] a detachment of the army of the north They were routed with 50 killed and a number taken prisoners

A Great Battle Imminent

LONDON Nov 25—A special from Tours on the night of the 23d says that Bourbaki has just arrived here from [illegible] and the 18th corps A great battle is imminent The design it seems is to pierce the enemy's centre at Etampes by a column of 150 000 moving from Angerville while a simultaneous attack will be made along [illegible] attenuated line west and northeast of [illegible]

A Paris special of the 19th says the Government announced officially on the [illegible] that no more news had been received for a fortnight After the 15th the flesh of horse, mule and ass was to be regulated by tariff like beef and rations thereof were to be issued by the Government The people bear their privations well thus far

The Black Sea Question

LONDON Nov 23—Advices from St Petersburg represent that commercial circles remain confident that peace will not be broken with England

VIENNA Nov [illegible] A [illegible] says it is reported that the refusal of Turkey to co operate with England is denied

LONDON Nov 24—It is noticed with [illegible] than surprise that Granville sent his note to Russia without waiting for the approval of his colleagues A Cabinet council held to day resolved to adopt a moderate tone toward Russia Leading members of the Government denounce the rupture and say war is unpopular

Lord Russell telegraphs to the foreign office that Bismarck disclaims all privity with the Russian circular

A serious engagement has taken place at Harcourt No particulars received

In Cabinet to day the reply of Russia to Granville's note and dispatch from Russell at Versailles containing Bismarck's reply were read To the present moment no official statement has been furnished To night anxiety and uneasiness prevail throughout London War is considered inevitable

From Paris

PARIS Nov 23—A correspondent from Paris by balloon says To day I went through Bois de Boulogne It is dismally blackened by fire and ravaged by axe I visited the outskirts of the place Bougival St Cloud is only partially burned The scene around is inexpressibly desolate A German battery of 24 guns was recently unmasked in the Garden Monquard The Germans also erected a mortar battery in the main avenue of Loir, on the outskirts of St Cloud, and a battery at Brumbon

Greenbacks for San Francisco

WASHINGTON, Nov 23 A week ago the U S Treasurer dispatched a special correspondent [illegible] San Francisco with $ 00 000 in greenbacks who arrived there yesterday

Unsettled State of Affairs in Spain

LONDON, Nov 24—A Republican insurrection is momentarily expected at Madrid The Captain General of Arragon telegraphed to Prim that the revolution will succeed if reinforcements are not sent.

The Eastern Question

LONDON Nov 24—Earl Russell writes to the *Times* saying that if the Czar proposes to set aside the treaty of Paris by force let us meet him with force The sooner the better

The *Morning Post* referring to Gortschakoff's note expected here says diplomacy is wholly at fault in conjecturing its nature

ST PETERSBURG Nov 24—Prince Gortschakoff's reply to the British and Austrian Governments is very conciliatory It explains the pacific meaning of a previous declaration and affirms that Russia craves peace generally and in the last especially It would be impossible to maintain it without a common understanding and Russia shrinks from acting separately from the other Powers

Opening of the North German Parliament

BERLIN, Nov 24—The North German Parliament opened to day A speech was delivered in behalf of the King giving thanks to the nation for its courageous attitude and the unanimity of its support in the task of repelling the French aggression France it says has been taught her inability to cope with united Germany Peace would therefore be certain if France had leaders who would sacrifice their personal interests in the future for the welfare of their country but they would rather ruin a noble nation than relinquish power This conduct is regretted it but perpetuates hostility between the two nations and France will only be peaceful until the opportunity for a conflict arises. The conditions on which Germany will make peace are well known They are commensurate with her sacrifices A defensive frontier is essential to prevent aggression on the German States south as well as north

The Federal Government asks Parliament to grant the needful means of peace so eagerly desired Its work has not been stopped by the war which has begotten closer unity, especially between the Northern and Southern States It is essential that negotiations with the latter be considered immediately by the Parliament The speech closes with appropriate congratulations and an appeal to God's favor

VERSAILLES Nov 24—The treaty uniting Bavaria with the Northern Confederation was signed last night

Russia's Schemes Again

NEW YORK Nov 24—A *Herald* dispatch from London says it is now stated that Gortschakoff was premature in the publication of his letter, as it appears that Thiers when on his visit to St Petersburg, stated that France had long regarded the treaty of 1856 as unjust to Russia as the treaty of 1815 had been to France and he expressed surprise that Russia had not sooner set it aside and assured them that everyone in France had always been prepared to see and consent to its abrogation This has so excited the popular mind that it is certain if Gortschakoff had not published his circular it would have been suppressed by Count Ignatieff the present Minister at Constantinople and the pet of the Muscovite party Gortschakoff showed his hand to save his place but the popularity of his movement precludes the idea of backing out

A *Herald* London dispatch says Government has issued orders for all men belonging to the naval storm reserve to immediately join their vessels The greatest activity prevails in the Admiralty Orders are constantly being issued for the concentration of men at the dock yards The dissolution of the present Ministry and the formation of a war Ministry is certain

Bazaine in Mexico

This is what a French soldier who served under Bazaine in Mexico thinks of the surrender Metz

In the name of three hundred of my comrades who have left Mexico I protest as a solemn duty against the infamous treason by which Bazaine has sullied the honor of France I declare that Bazaine is a traitor and he dyed in [illegible] was a traitor in Mexico and that he was [illegible] French soldiers in 1867 in the public [illegible] of the city of Mexico These are the facts Before the recall of the French army from Mexico more than five thousand non commissioned officers and soldiers were authorized to enter the army of Maximilian

When the French troops commenced their retrograde movement a circular from head quarters recalled all the volunteers who were then serving with the imperialist forces A great number returned to their regiments, but many in fact, a majority, never received the order because the communications were cut, and the country swarmed with guerillas, who when the French were leaving appeared in every part of the land They were therefore compelled to remain but Bazaine took care, before he sailed to publish a proclamation declaring all the French in the army of Maximilian deserters and not under the protection of the French flag The result of this infamous [illegible] was that when 114 French were made prisoners at San Jacinto on the 29th of January 1867 they were every one shot by Escobedo as filibusters

During this time Bazaine was marching by easy stages to Vera Cruz taking with him 17 artillery tumbrils each loaded with 12,000 ounces of gold More than this he gave to Porfirio Diaz 1 500 rifles carbines with 50 cases of ammunition, on condition that the estates of his wife who is a Mexican, should not be confiscated a promise which was strictly kept The first service of the ammunition was to shoot the unhappy betrayed Maximilian History never presented a more treacherous villain than Bazaine He was a traitor to the soldiers, a traitor to his ally a traitor to his country May he be thrice accursed

A BANNER DISTRICT—Under this caption the San Francisco *Examiner* (Dem) recently said

The Democrats of New York, generally, did some extraordinary voting, despite the Federal election law passed for their benefit specially But the tallest voting was done in the Fifteenth District of the Sixth Ward. There the vote stood For John T Hoffman, 318 for Stewart L Woodford 1 Who will say this is not the banner district

To which the San Francisco *Chronicle* forcibly responded

The Democracy must have done some "extraordinary voting" in the "banner district," for the New York *Times* of November 10th gives the names of thirteen qualified voters who voted in that district for Woodford, and yet only one who voted was counted against Hoffman It was tall counting, as well—we agree with our contemporary—but such tall counting in California would be apt to send the counters to the State Prison

THE McGARRAHAN CASE—A recent Washington dispatch gives this

The President denies that there was any controversy between Mr Cox and himself relative to the McGarrahan case that had any effect in the determination of Mr Cox to resign, or the acceptance of his resignation by the Executive. The facts as to the McGarrahan matter are that Secretary Cox and Mr Wilson, the Commissioner of the General Land Office, had determined to issue a patent to the New Idria Mining Company of California for the land which McGarrahan claims, notwithstanding the question as to the title to the land is still before Congress McGarrahan learning the purpose of Cox and Wilson, sought the President who was then at Long Branch, and laid the matter before him The representatives of the New Idria Company followed, and laid their case before the President, who directed that no patent should be issued to anybody until Congress disposed of the matter This is the statement as obtained from the President.

SATURDAY MORNING, NOVEMBER 26, 1870

Re-organizing Parties

Every observing person must have noticed that there are a goodly number of wiseacres in different parts of the country who very now and then are moved with the spirit of prophecy and begin to foretell a dissolution of existing political parties and to predict the formation of a grand conservative organization which is destined to attract to itself all the good and honest and virtuous elements of old parties and sweep the country. How often these soothsayers have come to the surface during the last ten years cannot be precisely told but it can be said with a good deal of certainty that their grand noble and virtuous party has not yet been born. During Mr Lincoln's administration it was steadily predicted that the new party was about to come into being. It would discard the fanaticism of the Radicals in regard to the negro and the heresy of the Democrats in regard to secession, and on the broad basis of 'conservatism' would surely succeed. Then again when Andrew Johnson was President it was proclaimed that the time for a reorganization of parties had arrived. Old organizations were to be abandoned and the great 'conservative reform party' was to come into existence and rise to power. The wiseacres on every one of these occasions talked with wonderful philosophy and wisdom. They were the oracles of the new party. Dressed in their opinion of "wisdom gravity and profound conceit, they predicted with great confidence a coming political change. But it did not come. The old parties did not fall to pieces, and the soothsayers were forced to postpone, time after time, the political revolution they had booked on their programme.

And now they are at it again. Once more they have mounted their hobby and are putting spurs to it. They are as persistent in following their idea that existing parties are to dissolve and that a great "conservative" organization is to spring into existence as the "adventists" or "Millerites" are in maintaining that the world is approaching its end and in fixing the time for that interesting event a year or so ahead. But always in both cases the play fails to come off in accordance with the bill. That, however, does not in the least disconcert the seers, who are ready at once to make new predictions. And so on the one hand we hear it proclaimed every year that the end of worldly things is approaching and will be upon us immediately, and on the other that existing political parties are about to break up, and that a new and greater and purer organization is about to absorb them.

Most of those who indulge in these speculations as to coming political changes are individuals who are consumed with political ambition, and who, on failing to obtain the preferment they seek, conclude at once that our politics are very bad and sadly need reforming. Disappointed in their political desires they are in a condition to see the need of a reorganization of parties on a basis more promising for themselves. In the virtuous mood in which they are left by failure or defeat they can perceive that our politics are dreadfully corrupt and need reformation, hence the necessity for a new and purer party to control and preserve the country. Things don't go exactly their way, and of course reform is a necessity.

We are led to these observations by seeing it announced that the Chicago *Tribune*, seconded by a few malcontent politicians, has declared in favor of a new party, and that this circumstance has occasioned some remark at the East. There are two explanations for this movement by the *Tribune*. Its principal editor was a candidate for the Republican nomination for Congress and was defeated. Thereupon the *Tribune* bolted and opposed the regular nominee. A coalition was formed by the *Tribune* and the Democrats, but it was badly beaten in the election, the whole of the regular Republican ticket being successful by several thousand majority. This result was a damaging blow to the "leading paper of the West." So it began to talk at once about organizing a 'new party." The second part of the explanation is that the *Tribune* is an extreme free trade paper and wants to "bolt" on that ground. Here is its basis for a new organization,—"party reform and free trade. It is more than probable that the people will conclude that neither of these things are necessary. The Republican party is capable of introducing all the reforms needed, and in the present condition of our industries and finances, with a large debt to pay and a demand for a large revenue, free trade is a most ridiculous hobby.

Must Bend their Necks

Several Democratic papers of Oregon have expressed themselves as decidedly hostile to Gov. Hoffman of New York as the probable candidate of their party for President in 1872. But they will be forced to yield, though it may cost as many wry faces to support him as it did to support Seymour in 1868. It is gratifying to learn from the New York *World* that Messrs Tweed and Fisk, Jr, already announce that they own the Democracy of the United States, and that modesty will best become all Democrats who do not belong to the New York ring. Here is the manner in which the Democracy of other States are informed what they are to expect:

> The Democratic leaders of this State feel the full weight of the responsibility which rests upon them in consequence of the great victory. They are aware that the struggling Democracy of the States will look to New York for counsel, guidance and example, and that the canvass of 1872 must, in its early and preliminary stages be shaped by the Democracy of this State. This will come, not from any assumption on their part, but from the force of circumstances.

Our Democratic brethren in Oregon will please take notice and prepare to accept the "counsel, guidance and example of the New York ring, and to support the candidate for President which it will please Tammany Hall to give them. Another good bye, to poor Pendleton! He couldn't carry his State but Hoffman has carried his. Therefore Hoffman is the man.

A pretty good story is told of the Democratic Senator elect. It appears that when he was elected he supposed, in the simplicity of his soul, that his presence would be required at Washington immediately and as he was to take his seat right away it would be necessary for him to hasten off. Accordingly he made all preparations to go, sold his household effects and packed all his possessions, thus reduced to portable shape, (except his stock in the Wallamet Falls canal swindle) into a carpet bag, and was just about ready to tramp when somebody was good enough to tell him that the seat he is to occupy will not be vacant for some months yet, and that the first regular session in which he will sit is still more than a year distant! He is said to have expressed some surprise and indignation at this, and to have declared that it was a rascally Radical trick to keep him out of his seat in the Senate as long as possible. We rather sympathize with the old party. After having taken [illegible] and to have evinced a willingness to do any thing or submit to any humiliation to get the place it is rather hard that he can't go into the situation at once as he reasonably expected to do.

The *Herald* still continues its robberies of the State Treasury by publishing at $43 per column the voluminous laws of the last session. No newspaper ever [illegible] more than $100 for this entire service. The laws both public and private, the joint resolutions and everything that the Legislature ground out go through the columns of the *Herald* at the exorbitant rates above named and the list seems likely "to stretch out to the crack of doom." It is thought that the *Herald* will have nearly enough copy to keep it agoing till the next session of the Legislature. At all events it is perfectly certain that this organ of economy and retrenchment is receiving several thousand dollars for a service which has heretofore cost the tax payers but $100. Now if the *Herald* would please give us another series of articles on 'retrenchment' and not forget to quote that report of a Legislative Committee of its own party which charged it with 'gross frauds in doing the State printing'!

We are told by the *Herald* that the Democracy of New York City on election day boldly met the minions of despotism,'—meaning the United States authorities—and 'intimidated them.' So we suppose that the reduction of the Democratic vote of New York City by 30 000—that is to say the non appearance at the polls of the swarms of repeaters who have heretofore put 30 000 votes in the ballot boxes—resulted from the fact that the United States authorities were 'intimidated and paralyzed by fear.' Election districts in the city which in former elections returned more votes than their whole population, including men, women, children and aliens, returned in the late election but one third as many votes as formerly, and all because the so-called 'minions of despotism,' the United States authorities, were 'afraid!' Certainly. We see it clearly.

Senator Osborne, of Florida telegraphs to the Washington *Chronicle* that the Republican State ticket in that State is elected by a small majority, and that there is a Republican majority in each branch of the Legislature, which saves the United States Senator.

The Late Elections and the Outlook

The New York *Herald* of the 12th inst has an article on this subject from which we present some extracts. It says:

> The late elections—East, West and South—have established several important facts in reference to the next Presidency. They settle the conflict for the next Congress for the Republicans, with the balance of power in the President's veto; they show in their results that on the platform of General Grant's administration the Republican party still substantially holds its ground, that it has secured, through General Grant's liberal policy toward the black race, the mass of the seven hundred and fifty thousand colored voters of the country—a powerful element; that the great political reaction expected by over confident Democratic arithmeticians has not yet begun and that the Republicans, with Grant as their candidate, have still the inside track and a good head way for the Presidential succession.

The *Herald*, of course, sees that President Grant will be renominated. It says:

> The Republican candidate for 1872 is General Grant, and there is no danger in his case of any contesting Republican aspirant. He stands to day the accepted champion of his party against all comers, and he stands upon the acceptable platform of a careful, money-saving, retrenching, tax reducing and debt paying administration. Against him, from the facts of the late elections before us the Democracy in 1862 will have but a slim chance of success.

Gov Hoffman, the *Herald* says, is Tammany's candidate for President. It says, however:

> There is no necessity for any hurrah in pushing the claims of Governor Hoffman for the nomination of the next National Democratic Convention. The past Presidential conventions of the party are full of instructions on this subject. Never since the time of Jackson has there been any certainty as to the candidate of these juggling conventions, and the aspirants first in the field have always been the first to be knocked in the head. * * * If Seymour had not spoiled the ticket we should recommend a positive withdrawal of the Governor from the field. As it is let him be held by Tammany as subject to eventualities, and not as an ultimatum; and thus he may escape those rival cliques and factions in the convention so fatal to any favorite under the two thirds rule.

This advice is given to the Tammany Democracy:

> Meantime the Tammany Democracy have a great task before them in putting the party for 1872 upon some new platform on the living issues of the day, after cutting it loose from the dead issues of the time of Buchanan. But first and foremost, the duty devolves upon Tammany of giving this city some satisfactory and substantial equivalents for the tax levy—something more than the shadows of city improvements, including improved communications from end to end of Manhattan Island, and with the islands and mainland on both sides. If the taxes of the national Government were on the scale of our corporation assessments, Secretary Boutwell would have the disbursement of a thousand millions a year. General Grant has more, much more to show for his money collected than the Tammany government. Taxes—speaking of taxes—we can do nothing without taxes; but give us, O Sachems! a fair equivalent for your taxes collected, and you may hold on in the city for twenty years. Next with regard to the State. Protect the people against the grasping schemes of railway and other leagues of powerful corporations, and you may hold the State for twenty years and avoid the intervention of Congress. Having all become millionaires, O most potent Sachems! now is your time to act largely and liberally for the city and the State.

OREGON

A C Daniel of North Salem, sold land at an average of $100 per acre.

A J Curtis is the station agent for the Railroad Company at Oregon City.

Mr James Cluggage, of Jacksonville is to be Superintendent of the stage line in Oregon.

From the Oregon City paper: The report that the small pox was among the few remaining Molalla Indians is not true. The disease has been nowhere in this county except in the Wright family.

Jesse D Carr says the Salem *Statesman*, has come to Portland to wind up the transfer of the overland stage property to Barlow & Co, of Nevada, the present contractors for carrying the daily mail.

A man was sent to the pest house near Salem a few days ago, but as the small pox would not "break out" he concluded to "break out," which he did occasionally for the purpose of coming to town for a drink.

The *Statesman* says: On Tuesday last the regular evening train of cars met with an accident. When about 400 yards above the Salem depot in Cross' pasture, the locomotive ran over a cow or steer and threw several others off the track killing three animals and throwing the hind wheels of the tender off the track.

A Washington dispatch of the 17th inst says that the President has received a large number of letters from prominent men all over the country indorsing his action in accepting the the resignation of Secretary Cox. It is ascertained that President Wolsey, of Yale College, and others who signed the letter to Secretary Cox just after his withdrawal from the Cabinet, are satisfied now that they made a mistake. This letter of condolence was written before the publication of the correspondence about the McGarrahan claim.

The Russian Government recently received a consignment of [illegible] Gatling revolving cannon from the United States of the most improved description. These have been distributed.

A dispatch from Vienna states that Austria is preparing to send 300 000 troops to the Eastern frontier, upon the borders of Hungary and Transylvania. The military preparations are well forwarded.

A rumor is current at Washington that the Prussian Government have instructed a person to enter into negotiations for the purchase of San Domingo. It does not generally receive credence.

The President and Cabinet have received an invitation to be present at the two hundred and fiftieth anniversary of the landing of the Pilgrims at Plymouth Massachusetts on December 22d next.

Official returns from all the counties of Maryland show the vote of the State as follows: Democrats [illegible]; Republicans 57 729; total [illegible] 535. The Republican vote in the state in 1868 was 30 438.

The rush of work in the Census Bureau has greatly slacked of late. General Walker has pushed things vigorously ahead and the work of reducing the force will soon commence. Probably twenty five or thirty clerks will go out on the 1st proximo.

Vinnie Ream writes from Rome, October 16th that she would soon take her departure for the United States bringing with her the statue of President Lincoln, just completed, and says she hopes to be able to present it to Congress shortly after the commencement of the session about to convene.

On the 17th inst a fearful scene occurred in the city court at Madison Wisconsin. An old man named Robert Dudley was giving his testimony against a man who had assailed him in his house when he suddenly paused, gasped for breath and in a moment slipped off his chair and was dead. A physician was called who said that that his death had been caused by a fit of apoplexy.

On the 18th inst Senator Drake of Missouri was closeted with the President from an early hour up to the meeting of the Cabinet. It is understood that he was engaged in detailing to the President his side of the story of the late campaign in Missouri. He denounced in strong terms the conduct of Brown, Schurz and other leaders of the Reform movement. He assured the President that these men are ready to co operate with the Democratic party to defeat his Administration.

From a Washington dispatch of the 18th we quote: Notwithstanding the fact that a general European war looks imminent, the impression in Administration circles is that England will not be driven into it, for the reason that she has too much at stake. It is believed that if she should be drawn into a war several of her colonies would revolt and set up for themselves. In any event, our Government will maintain a strict neutrality, and take advantage of the disturbed condition of Europe to build up our commerce and increase our trade.

A delegation of prominent officials from the Territory of New Mexico arrived at Washington on the 18th to urge upon Congress the passage of an act admitting New Mexico as a State into the Union. They claim that the Territory has over 100,000 taxable inhabitants, and is fully prepared for admission. They say that within a year after the Trans continental Railroad is completed, and connection made with the Kansas Pacific, the Territory will have trebled its present population. The bill for the admission of the Territory was introduced during the last session of Congress and is now in committee. A similar bill for Colorado will be given the preference.

General Sherman, in his forthcoming report, in referring to the law reducing the army expresses himself as follows: "Good men, as we have plenty of, desire to have something permanent. A berth in the army has always been supposed to be that, but it is completely metamorphosed now. Some officers don't know if they are safe and can't tell where this thing will stop. One after another go, and they tire of uncertainty and resign. They want to settle down at something, and that is the way they leave. No man is willing to give the best years of his life to the profession and the first thing he knows he finds himself out of it, or at best feels uneasy all the time."

POLITICAL NOTES

The official Republican majority in Iowa is 42 052.

Colonel Golladay one of the newly elected Democratic Congressmen from Tennessee, served in the rebel army, and was taken prisoner at Pittsburg Landing.

As ex Secretary Cox was born in Canada—his parents, who were citizens of the United States being temporarily residents of Montreal—two of the Cincinnati papers are discussing with some warmth whether he is eligible to the Presidency of the United States.

Complete returns in St Louis county give Brown 17 258, McClurg 4 672. Brown's majority is 12,584. The reported majorities from fifty four counties give Brown 41 795 McClurg 10 885 majority for Brown, 30 911. These indicate Brown's majority in the State to be 35 000 to 40 000.

Following is a late dispatch concerning the election in Wisconsin. Returns have been received from the most of the Legislative Districts. The Senate will stand about 20 Republicans to 13 Democrats. Assembly, 60 Republicans to 40 Democrats. The Republican majority in the State will be about 12 000.

Alluding to the fact that the Republican Legislature of Vermont has unanimously elected a Democrat to the Supreme Bench of the State the Burlington *Free Press* says: "This State has not been wont to select its Judges on party grounds. In the days of the old Whig party, with strong Whig majorities in the Legislature, sometimes half of the Judges of the Supreme Court were of the opposing politics. The Republican party has in like manner elected and re-elected Democratic Judges."

The Wheeling *Register* gives returns from all but seven counties in West Virginia, showing a majority of 2 336 for the Democratic candidate for Governor. The Democratic majority for Congressman in the First Congressional District is 1 344 and in the Third [illegible]. In the Second the Republicans elect their candidate by 987 majority. The new Senate of West Virginia will consist of ten Republicans and twelve Democrats. In the House there will be fifteen Republicans and thirty eight Democrats.

Information received at Washington shows that the Republican loss in Alabama of the Legislature is owing to bolting Republican and Independent tickets being run in Mobile Baldwin and Madison counties. In Mobile county five bolters ran independent of the regular nominees and received one 200 votes, just sufficient to defeat the regular candidates who had about 4 000 votes. Had the five regular nominees received the full party vote the Republicans would have had a majority on joint ballot sufficient to have elected a Senator in Congress to succeed General Warner. This bolt, it is alleged was under the auspices of the Postmaster and Collector of the Port of Mobile. Horton, recently appointed Appraiser at Mobile led the bolting ticket, and his commission will probably be revoked.

A Rival in the Northwest

(From the San Francisco Chronicle.)

A rival to San Francisco for the China trade is looming up in the Northwest. A railway is being constructed between the head of Lake Superior in the East and Puget Sound on the Pacific having for its avowed object competition with California and the Central Pacific Railroad for the trade of the East Indies and the Chinese Empire. The work is progressing rapidly on the Western or Lake Superior division of the road it being estimated that within a year nearly a thousand miles toward the Sound will have been constructed and put in running order. Congress was exceedingly liberal in its grants of land to the Northern Pacific Railroad Company, consequently there is no lack of funds with which to prosecute the work. The company have based their estimates and calculations upon the comparative absence of snow during the winter upon their route, and the excellence of the alternate sections of land for agricultural purposes which will build up a local traffic as fast as the road advances toward completion. The Puget Sound district is rich in timber lands and the [illegible] present no serious obstacles. Orders have been issued for the immediate prosecution of the work from the Sound toward the Dalles Oregon a distance of two hundred and sixty miles and everything proves that the Northern Pacific Railroad is not only a probability but will soon be a fixed fact. San Francisco may therefore, within a few years expect a rivalry that will tax her resources and energies to maintain the supremacy. Puget Sound has a magnificent harbor [illegible] noted the world over for its timber. It is nearer the Asiatic ports than is San Francisco. [illegible] will be able to offer to secure a large portion of the Western immigration. San Francisco is already built up and has the monopoly of the China trade, but unless the overland railroad charges are reduced it will not be able to compete with the Northern Pacific [illegible] the bulk of the trade. In time of peace prepare for war [illegible]. In times like the present when San Francisco is enjoying a monopoly of the China trade her citizens ought to prepare for a competition that may wrest commerce from their grasp.

The Summer is past and Autumn is here
The finest season throughout the whole year
But the days grow cold and all must prepare
For warmer Clothing in Winter to wear
Well KOHN & FISHEL of Clothing renown
Have the best supply ever brought to town
They have all sorts of coats and pants that will match
That will last a whole year and not need a patch
There are socks vests and shirts and a thousand things more
Which they offer you cheaper than ever before
You all need the clothes and they need the tin,
Then get a new suit and let Winter go in

Oro Fino Theater.—The excellent comedy of Camilla's Husband first time in Portland was performed last evening. Mrs Bates in the character of Camilla, Mr Bates as Maurice Warner, Mr Vinson as Sir Philip Hailstone supported by the entire company. The piece was admirably mounted and played with fine spirit but failed to draw out the enthusiastic applause which has been given the plays at this theater for the last week or two. It is, nevertheless, a fine comedy and with the spirit given by all the actors in their several personations will bear repeating once or twice. We think Mr Bates rendered quite a number of his passages with exceedingly correct and effective taste. Mrs Bates' part in [illegible] gives little opportunity for display of dramatic ability but she made it all it was capable of. The same remark may be made in regard to Mr Vinson's part. [illegible] was laughable; Clinton was rather an original style of landlord. Miss Ingles did her part quite creditably, and Miss Cummings was well enough as Sloeberry, except that she lacked something of spirit. The play will be presented again this evening. At 2 o'clock, matinee, "The Secret of a Life."

Vote of Thanks.—At a meeting of the Board of Managers of the Vancouver Catholic Library held on Sunday Nov 20, 1870, at their rooms in Vancouver City, W T it was

Resolved That the thanks of the Vancouver Catholic Library Association be and they are hereby tendered to S J McCormick, Esq, of Portland Oregon, for his kindness in delivering a lecture for the benefit of the Vancouver Catholic Library Association, and that the same are extended to Professor James Gans [illegible] Portland, Oregon, for his kindness for performing on the piano at the same lecture on the evening of the 13th of November, 1870.

An Eastern Puff of an Oregon Apple.—The *National Republican* (Washington) of a late date thus notices a trifle of an apple grown in this State: We are willing to bet that we can show a bigger apple than any one in town. Who takes us up? This monster, equal in size to any which grew in the Garden of Eden, bears the high-sounding title of *Gloria Mundi*, and was grown in Eugene, Oregon, under the fostering care of Mr H R Kincaid, to whom we are indebted for the gift. It weighs just a pound and a half and will be given to the contractor who finishes his part of the pavement first—provided the big apple isn't rotten (or eaten) before then. These apples are sold at the astonishingly low price of fifty cents a peck—one in a peck."

Timely Hint.—At present the greater part of our mails from the East come overland via Idaho and Umatilla. This arrangement is all very nice while the Columbia river keeps open, but, as in former years the river is liable to freeze over after a little, and then unless timely precautions be taken against a stoppage of mails, we may be for a month or so deprived of our correspondence and exchanges. We suggest to the Superintendent of Postal Affairs that, inasmuch as the time by way of Sacramento is about the same as by way of Idaho, it would be well to issue instructions in advance of an ice blockade to have our mails sent by way of California.

"The Story of a Workingman's Life."—This is the title of a new book from Oakley, Mason & Co publishers, New York, laid upon our table by Mr Harris, of the firm of Harris & Holman book dealers of this city. It is an interesting account of the travels and labors of a Baptist missionary—Dr Francis Mason—written in the autobiographical style, and is a book that would be an acquisition to any family or public library. It embraces much that is descriptive of the countries and peoples of Europe, America, Asia and Africa, and in this respect is an instructive work.

Plaza Concert.—Programme of the Twenty-third Infantry band for Saturday November 26, 1870, at 3 o'clock P M:

1. Quickstep "Home Again"
2. The Lillian Polka
3. Hungarian Melody
4. Quadrille from Maritana.—*Wallace*
5. The Portuguese Reveille
6. Waltzes, Rhine Klange."
7. Romance from the Grand Duchess, "Say to him."—*Offenbach*
8. Just Once More Galop

An Assault upon a Woman.—A woman named Lee residing on Yamhill street was assaulted about 1 o'clock Thursday morning by a man named Michael Vert, who called her to the door and upon her appearance buried a stone at her, hitting her on the head and inflicting a bad wound. A warrant was issued for Vert's arrest, but he was not found during the day, and it is thought that he got away on the steamer Oriflamme.

Thanksgiving Parties.—A few "mutual friends" met at N [illegible] Engine House Thursday evening and had an exceedingly pleasant sociable and dance. The amusement was continued till some time after midnight. The Emmett Guard also closed their annual exercises with a ball at their armory.

Pay Up.—We are requested to call the attention again of stockholders to the assessment levied on the capital stock of the Masonic Building Association and in behalf of the Association to say that it is urgently desired that stockholders pay promptly.

SATURDAY MORNING NOVEMBER 26 1870

CITY.

DROWNED—MELANCHOLY ACCIDENT —George Sowan, a young man well known in this city was drowned yesterday morning, from the about six or seven miles below city. He was engaged in moving a large the forward deck when by some accident the little steamer the and knocked him overboard the men standing near tried to catch him as steamer (which was under headway) was pass but the attempt was unfortunately and George drifted astern. The man wheel pulled the wire attached to the to stop the engine but the bell did not A skiff was launched alongside and one of got into it but it was so leaky that it rapidly and was about to sink when the without having cast off from the steamer obliged to clamber out of the skiff on to the again. In the confusion no one seemed think of casting overboard a plank or any by which George could keep afloat and he went down, crying out: I am lost as he disappeared beneath the water. All efforts after to find him or to recover the body after it certain that he must be drowned were una A party went down from the city with irons and dragged all the rest of the but without success. The effort to recover body will be resumed this morning.

THE THEATER.—The excellent comedy Camilla's Husband, first time in Portland, performed last evening Mrs Bates in the of Camilla, Mr Bates as Maurice War Mason as Sir Philip Hailstone supported the entire company. The piece was admira mounted, and played with fine spirit but failed to draw out the enthusiastic applause which been given the plays at this theater for the past. It is, nevertheless, a fine com and with the spirit given by all the actors in several personations will bear repeat twice. We think Mr Bates rendered of his passages with exceedingly effective taste. Mrs Bates' part in it opportunity for display of dramatic made it all it was capable of. The may be made in regard to Mr Van Ellerton was laughable. Clinton was original style of landlord. Miss Ingles part quite creditably, and Miss Cummings enough as Sloeberry except that she of spirit. The play will be again this evening. At 2 o'clock The Secret of a Life.

THANKS.—At a meeting of the Board of the Vancouver Catholic Library, Nov 20, 1870, at their rooms in city, W T, it was That the thanks of the Vancouver Library Association be and they are tendered to S J McCormick, Esq of Oregon, for his kindness in delivering a for the benefit of the Vancouver Catholic Association, and that the same are ex Professor James Gans, of Portland, Ore kindness for performing on the piano lecture on the evening of the 13th of 1870.

PUFF OF AN OREGON APPLE — Republican (Washington) of a late notices a trifle of an apple grown in "We are willing to bet that we can apple than any one in town. Who This monster, equal in size to any in the Garden of Eden, bears the title of *Gloria Mundi*, and was Eugene, Oregon, under the fostering Mr. H. R. Kincaid, to whom we are in the gift. It weighs just a pound and will be given to the contractor who part of the pavement first—provided isn't rotten (or eaten) before then sold at the astonishingly low price a peck—one in a peck."

—At present the greater part of from the East come overland via Idaho This arrangement is all very nice Columbia river keeps open but, as in the river is liable to freeze over af then, unless timely precautions be stoppage of mails, we may be for deprived of our correspondence We suggest to the Superintend Affairs that, inasmuch as the time by is about the same as by way it would be well to issue instructions in blockade to have our mails sent

DIARY OF A WORKINGMAN'S LIFE"— of a neat book from Oakley, Ma publishers, New York, laid upon our Wells, of the firm of Harris & Hol of this city. It is an interesting the travels and labors of a Baptist Dr Francis Mason—written in the style, and is a book that would to any family or public library much that is descriptive of the coun of Europe, America, Asia and in this respect is an instructive work

Russian Abrogation of the Treaty of Paris

A London dispatch of November 17 gives the following as the translation of Gortschakoff's note to the European Powers which has raised such a consternation in Europe:

Our august master cannot admit in law that treaties infringed on in several of their essential and general clauses remain obligatory. On those which touch the direct interests of his Empire, His Imperial Majesty

CANNOT DEPEND ON A FICTION

Which has not withstood the test of time, and be put in peril by his respect for engagements which have not been observed in their integrity. The Emperor, confiding in the sentiments of equity of the signatory Powers of the treaty of 1856, and in the consciousness they have of their own dignity, instructs you to declare that His Imperial Majesty

CANNOT LONGER CONSIDER HIMSELF BOUND

By the obligations of the treaty of the 15th and 30th of March, 1856, so far as this limits his rights of sovereignty in the Black Sea, that His Majesty considers it his right, and duty to give notice to His Majesty the Sultan, in respect to the special convention additional to said treaty, which fixes the number and dimensions of ships of war which the two riparian Powers reserve the right of maintaining in the Black Sea; that he hereby gives notice of this to the Powers signing and guaranteeing the general treaty, of which this special convention constitutes an integral part; that he restores to His Majesty the Sultan full possession of his right in this respect, as he equally

RECLAIMS HIS OWN RIGHT

For himself. In discharging this duty, you will be careful to state that our august master has in view only the dignity and security of his Empire. It is by no means the purpose of His Imperial Majesty to raise the Eastern question. Upon this point he has no other wish than the preservation and consolidation of peace, and fully maintains his adhesion to the general principles of the treaty of 1856, which settled

THE POSITION OF TURKEY

In the European system. He is ready to come to an understanding with the Powers who signed this arrangement, either to confirm its general stipulations or renew them, or substitute for them any other equitable arrangement which may be thought suitable to secure the repose of the East and the European equilibrium.

WAR MISCELLANY.

An Austrian artillery officer, writing to a Vienna paper, demonstrates the possibility of the bombardment of Paris without the previous capture of any of the forts. He states that the heaviest shells can be thrown to a distance of eight thousand yards by giving the guns an elevation of from thirty-five to forty degrees. This, he says, has been demonstrated by the bombardment of Venice.

A correspondent of the Hanover *Courier* writes the following: "When the German troops were looking for wounded troops, on the 7th of October, on the battle-field near Metz, they found large fires which had been kindled by French peasants, and into which wounded German soldiers were being thrown by them. Eighteen of the men who were caught in the perpetration of the fiendish act were executed."

The pecuniary cost entailed upon France by the present war is enormous. The Paris *Pays* publishes a rough estimate of the cost which may well make all but fanatics desirous of peace. According to that paper, the expense of the preparations from 1868 till 1870 may be estimated at one milliard (one thousand millions), the destruction and injury of fortresses which will have to be repaired at one milliard and a half, the guns, arms, and materials of war taken by the Germans at one milliard and a half, the buildings, fields, and estates destroyed or injured by the two armies at two milliards, the total or partial ruin of manufacturers, proprietors, and commercial men at one milliard, the compensation to Germany of two milliards and a half, and the losses occasioned by the effects of all these misfortunes at two milliards. According to this rough calculation, therefore, which certainly does not exaggerate it, the money loss of France may be estimated at twelve milliards of francs, or $2,400,000,000.

FINANCE AND COMMERCE.

PORTLAND, Friday evening, Nov. 25, 1870.

Gold in New York 111¼.

Legal Tenders, 89c buying, and 90c selling.

Exchange on San Francisco, coin par; currency ½ per cent premium.

Exchange on New York ½ per cent. premium.

Telegraphic transfers 2 per cent. premium.

State bonds 86 to 87½. State warrants 94 cents.

Thirty and ninety days loans, at the banks, 1 per cent. Outside rates 1½@2 per cent. per month.

There is no special complaint in relation to the supply of money for all legitimate business purposes. The natural proportion between the supply of gold and silver coin is being gradually restored—gold becoming comparatively more plenty than during the early part of the year.

The volume of trade in all departments continues greater than it has ever been heretofore in the corresponding period of the year. Usually at this late season business is almost suspended, but this season there has been thus far a good trade in all directions, the aggregate showing but a slight falling off from September and October. Considering the fact that the Wallamet river is so low as to make transportation by steamer slow and difficult, the amount of goods sold and sent into the interior is almost a wonder. The railroad is taking considerable of this freight to points along the road on the east side of the river, and for towns and villages in Linn and even Lane counties. The pleasant weather has been extremely favorable to transportation by wagons, and thus the west side interior has been a constant buyer. The rains having now set in with a prospect of continuing, we may naturally look for a dull season, at least, till the river shall be sufficiently swollen to afford easy navigation.

We have no changes to note in quotations. All stocks in this city are full, and there never were fuller or more varied assortments.

The produce market remains very much as quoted last week. There is little less buoyancy of feeling in regard to grain and flour, in consequence of the more pacific tone of the European news. It is now conceded improbable that the war will extend beyond the two powers of France and Prussia, and the views entertained a week or two ago in relation to breadstuffs are considerably modified.

Since our last weekly report the bark *Tordenskold* sailed for England with a cargo of wheat valued at $22,322 70. The total shipments to foreign ports from November 1st to date, aggregate in value, $53,000.

The brig *Kentucky* sailed yesterday with about 400 domestic produce, for San Francisco. The *Oriflamme* also sailed yesterday with about 300 tons produce.

LAND DEPARTMENT

OREGON & CALIFORNIA RAILROAD COMPANY.

SALEM, OREGON, October 22, 1870.

THE FOLLOWING STATEMENT IS MADE FOR information of all concerned.

First. Congress has granted to the Company all alternate sections of the public lands designated by odd numbers within a distance of thirty miles on each side of the railroad, excepting lands to which a pre-emption or homestead claim had attached prior to the withdrawal by Government of the lands coterminous with the first division of located line from East Portland to Jefferson, at 12 M. February 10, 1870. The second division of located line from Jefferson to a point six miles south of Roseburg, May, 1870, and from the last named point to the California line, 1870.

Second—Persons who have valid pre-emption or homestead claims to any tract on an odd numbered section can purchase the same from the Railroad Company at the Government price of $1 25 per acre in greenbacks, and upon very favorable terms, if they so desire, by filing an abandonment of their claim in the U. S. Land Office, blanks for which will be furnished by the Land Agent of the Company. Such purchase from the Company has these advantages over a purchase from the Government. The party can leave the land if necessary; he can sell the land or mortgage it; he is saved the payment of lawyers' or agents' fees, and expenses of witnesses to go to the Land Office to "prove up" his claim; he can get his title perfect in less time, and he can buy on credit at a low rate of interest.

Third—No sales will be made by the Company until the land is listed over to it by the United States Land Commissioner and Secretary of the Interior.

Purchasers are thus assured that the title they obtain is perfect. I. R. MOORES,

NOTICE TO MARINERS.

UNITED STATES OF AMERICA—COAST OF CALifornia, Light House at Point Reyes, California.

Notice is hereby given that a REVOLVING (scintillating) WHITE LIGHT, of the first order of the system of Fresnel, will be exhibited, for the first time, on the evening of December 1st, 1870, and on every evening thereafter, from sunset to sunrise, from the tower recently erected on Point Reyes, California. The intervals between the flashes are [illegible].

The tower is [illegible] feet [illegible] inches in height from the base to the focal plane, built of iron, painted white, and is situated on the steep slope of the bluff point, about 200 yards from its extremity. The dome of the lantern is painted red, the other parts of it white.

The light is elevated 290 feet above the mean level of the sea, illuminating an arc of 360 degrees of the horizon, and should be seen, in ordinary states of the atmosphere, from the deck of a vessel 15 feet above the water, at the distance of 24½ nautical miles.

The keeper's dwelling is a two story wooden building, painted white, with green blinds, and is placed at the top of the steep slope, 215 feet higher than the base of the tower.

The geographical position of the Light House, as shown by the United States Coast Survey Chart, is lat. 37 degs. 59 mins. [illegible] North, long. 123 deg. 00 mins. [illegible] west from Greenwich. The magnetic variation [illegible] degs. [illegible] east.

A tangent to the shore in an easterly direction, bears N. 74 degs. E. magnetic, and this line limits the visibility in that direction. The angle of visibility over the water is 255 degs.

The [illegible] give the magnetic bearings from the light to the prominent [illegible] Point Bonita Light House [illegible] degs. [illegible] E. [illegible] distant 27½ miles. To [illegible] Farallon Light House, S. 18 ¼ degs. E. [illegible] distant 17 miles. To Point Arena Light House N. [illegible] degs. W. [illegible] distant 67 miles.

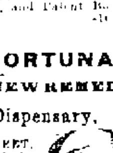
TO THE UNFORTUNATE.

NEW REMEDIES, NEW REMEDIES

Dr. Gibbon's Dispensary.



623 KEARNEY STREET, NEAR COMMERCIAL, San Francisco. Established in 1854, for the treatment of Sexual and Seminal Diseases, such as Gonorrhoea, Gleet, Stricture, Syphilis in all its forms, Seminal Weakness, Impotency, etc. Skin Diseases (of years standing) and Ulcerated Legs successfully treated.

DR. GIBBON has the pleasure of announcing that he has returned from visiting the principal Hospitals of Europe, and has resumed practice at his Dispensary, 623 Kearny street, corner of Commercial, San Francisco, where his old patients and those requiring his services may find him.

The Doctor has spared neither time nor money in seeking out new remedies, and has returned with increased facilities for the alleviation of human suffering.

Horrible Diseases.

How many thousands of persons, both male and female, are there who are suffering out a miserable existence from the effects of secret indulgence, or from virus absorbed in the system! Look at their pallid, emaciated and disfigured faces and their broken-down constitutions, disqualifying them for the happiness of marriage or the enjoyment of life. In this horrid situation thousands suffer until death closes the scene. Let parents, guardians, friends, attend to those who are suffering with any of these horrible life-destroying maladies—see that they are cared for and cured before it be too late. Send them immediately to Doctor Gibbon, a physician who has made private disease his especial study for years, and who is certain to cure the most inveterate cases without mercury or any injurious drugs. It is important to those who are afflicted, or to those who are interested in the welfare of their friends, to be careful of the many pretended doctors who infest all cities, publishing their skill in curing all diseases in a few days, imposing upon the public by using the names of eminent physicians from Europe and other places. Be therefore careful and make strict inquiry, or you may fall into the hands of these charlatans.

Seminal Weakness.

Seminal Emissions, the consequence of self-abuse. This solitary vice, or depraved sexual indulgence, is practised by the youth of both sexes to an almost unlimited extent, producing, with unerring certainty, the following train of morbid symptoms, unless combatted by scientific medical measures, viz: Sallow countenance, dark spots under the eyes, pain in the head, ringing in the ears, noise like the rustling of leaves and rattling of chariots, uneasiness about the loins, weakness of the limbs, confused vision, blunted intellect, loss of confidence, diffidence in approaching strangers, a dislike to form new acquaintances, a disposition to shun society, loss of memory, hectic flushes, pimples and various eruptions about the face, furred tongue, feted breath, coughs, consumption, night sweats, monomania and frequent insanity. If relief be not obtained, should apply immediately, either in person or by letter, and have a cure effected by his new and scientific mode of treating this disease, which never fails of effecting a quick and radical cure. Dr. G. will give One Hundred Dollars to any person who will prove satisfactorily to him that he was cured of his complaint by either of the San Francisco quacks.

MARRIED MEN,

Or those who contemplate marriage, who are suffering under any of these fearful maladies, should not forget the sacred responsibility resting upon them nor delay to obtain immediate relief.

DOCTOR GIBBON is responsible, and will give to each patient a written instrument, binding himself to effect a radical and permanent cure, or make no charge.

CURED AT HOME.

Persons at a distance may be CURED AT HOME, by addressing a letter to Dr. Gibbon, stating case, symptoms, length of time the disease has continued, and have medicines promptly forwarded, free from damage and curiosity, to any part of the country, with full and plain directions for use, for Ten Dollars, sent in registered letter or through Wells, Fargo & Co.

Address DR. J. F. GIBBON, 623 Kearney street, corner Commercial, (Private Entrance on Commercial) San Francisco. Post Office Box 1,957.

REMEMBER TO PUT BOX 1,957 ON THE LETTER.

Consultations FREE.

Correspondents will please inform DR. GIBBON that they read his advertisement in the *Daily Oregonian*.

SECURE A HOME!!

THE RIVERSIDE

HOMESTEAD ASSOCIATION!

OF

EAST PORTLAND, OREGON,

IS NOW PREPARED TO RECEIVE SUBSCRIPTIONS to their Stock.

Application for ONE HUNDRED SHARES was made before the books were opened, and a large number of Shares have been taken.

The following extracts from the *Oregonian* and Bulletin will convey a good idea of the plan and workings of the Association, the location of the land, etc., etc.:

RIVERSIDE HOMESTEAD ASSOCIATION.

This association of whose organization we gave an account a few days since, is now ready to dispose of shares. As it is with one exception, (the Portland Homestead Association,) the pioneer organization of that kind in this city, it may be well enough to state what are its purposes, and the manner in which it is proposed to conduct its operations. The purposes of these Homestead Associations are not at all speculative in the ordinary sense of the word. They are dependent for the profits of their investment upon the natural advance in the value of their lands, consequent upon the co-operation of many individuals—shareholders—and the advance on values of all surrounding lands by reason of the expansion of population and demand for room outside of, but still near, the city. The Riverside Homestead Association has a fraction over one hundred and twenty acres of land situated just south of Brooklyn on the east side of the river, the northern boundary line being about one mile from the ferry landing at East Portland. The tract lies in one strip along the Wallamet river, half a mile in length, and another strip along the Oregon and California railroad, half a mile in length, the two strips being connected near the middle by two rows of blocks (with a street between them,) the whole forming a figure not unlike the letter H. It is divided into 74 blocks, 200 feet square (with streets running at right angles) and 30 fractional lots, along the river front. The shares number 600, worth $60 per share. It will be seen that a share thus represents nearly a lot with an undivided interest in the 30 fractional lots. The fractional shares are to be sold off at the [illegible] for the benefit of the Association, [illegible] coming in for the proceeds in proportion to the number of shares held. When all the shares are taken and the Association [illegible] mine to do it, the choice of lots and blocks will be put up at auction to the highest bidder, the proceeds of such sales, after [illegible] the original price of shares or lots, to be divided equally among the whole number of [illegible]. Thus, if a person wants a particular lot or block, and is willing to pay $100 or $800 premium (more or less as the case may be) he pays it and takes the lot or block as his individual property, the premium being divided among the whole number of shareholders. It will be seen, [illegible] that everything is co-operative, and all [illegible] [illegible]. No man can make a dollar out of it without also making a dollar for every other equal shareholder. There is no chance for loss unless the property, by some chance, should [illegible] far below the first actual cost. Whether this is liable to happen in the case of this [illegible] tract of land must be judged by each for [illegible], but considering the steady and [illegible] advance on real estate in this city and [illegible] hood, and at East Portland and vicinity, for the last year or two, it seems hardly [illegible] for values to go back.

In the Riverside Association [illegible] tions seem to have been taken to guard against monopolies of shares. No person is allowed to buy more than the number of shares [illegible] three blocks, or twenty-four lots, and votes determining the operations of the Association are restricted in the same manner. The buyers of shares may pay down $60 per share, which will exempt them from all assessments, or they may pay $15 quarterly with an [illegible] of $1 per share, payable with the first installment, being liable in this latter case to another (and only another) assessment of $3 per share. Upon the payment of the shares in full, with the [illegible] as above, the holder is entitled to his [illegible] and his proportion of all the profits accruing from all sources. No officer of the Association receives any pay for services except the Secretary, who gets $25 per month; so it will be seen that the expenses must be light.

That part of the tract lying along the river is a high plateau, nearly level, about 40 to 50 feet above the water. There is no part of the front row of blocks but commands a splendid view of Portland and the river for miles up and down stream. That part of the tract lying along the railroad is, every foot of it, of the richest loam soil and adapted to gardening purposes. A beautiful little stream of pure water runs through almost the entire length of this wing of the tract, affording the means of irrigation, and power sufficient to supply pure water to every part of the whole tract. There is not a waste lot or fractional lot in the entire tract. Under all these advantages, it would seem impossible that there should be any chance of loss to shareholders. Within a year each shareholder, if he choose, may get a perfect title to as many lots as his shares may represent, or he may continue his interest undivided, with the Association while the organization may exist.—*Oregonian.*

THE RIVERSIDE HOMESTEAD ASSOCIATION.

We have been led to make these remarks from the fact that the subject of making homesteads on the outskirts of this city and East Portland, is being thoroughly discussed here among all classes, and one located at "Riverside," just south of East Portland has already been established. The site selected is a tract of land lying a little over a mile south of the ferry landing. It is shaped like the letter H, one side of which, a half mile in length borders on the river. [illegible]

From this portion of the homestead, which is elevated but a trifle above the other prong of the H, but is still forty or fifty feet above the river, can be had an extensive view of Portland, East Portland, the shipping, and the Willamette river for several miles. The land is very fertile, and is partly covered with light fir timber. A tract of land just wide enough for two rows of blocks, with an avenue between them, connects the west prong of the H, which has already been described, with that on the east. The east tract of land is in a beautiful little valley which is now under a high state of cultivation. Through its whole length runs a trout brook, the water of which is clear as crystal. With a hydraulic ram the Association propose to have water conveyed through pipes to every portion of the homestead.—*Daily Bulletin.*

Russian Abrogation of the Treaty of Paris.

A London dispatch of November 17, gives the following [illegible] of Gortschakoff, [illegible] note to the European Powers which has raised such a consternation in Europe:

Our august master cannot admit in law that treaties infringed on in several of their essential and general clauses remain obligatory. On those which touch the direct interests of his Empire, His Imperial Majesty

CANNOT DEPEND ON A FICTION

Which has not withstood the test of time, and be put in peril by his respect for engagements which have not been observed in their integrity. The Emperor, confiding in the sentiments of equity of the signatory Powers of the treaty of 1856, and in the consciousness they have of their own dignity, instructs you to declare that His Imperial Majesty

CANNOT LONGER CONSIDER HIMSELF BOUND

By the obligations of the treaty of the 18th and 30th of March, 1856, so far as this limits his rights of sovereignty in the Black Sea; that His Majesty considers it his right, and duty to give notice to His Majesty the Sultan, in respect to the special convention additional to said treaty, which fixes the number and dimensions of ships of war which the two riparian Powers reserve the right of maintaining in the Black Sea; that he hereby gives notice of this to the Powers signing and guaranteeing the general treaty, of which this special convention constitutes an integral part; that he restores to His Majesty the Sultan full possession of his right in this respect, as he equally

RECLAIMS HIS OWN RIGHT

For himself. In discharging this duty, you will be careful to state that our august master has in view only the dignity and security of his Empire. It is by no means the purpose of His Imperial Majesty to raise the Eastern question. Upon this point he has no other wish than the preservation and consolidation of peace, and fully maintains his adhesion to the general principles of the treaty of 1856, which settled

THE POSITION OF TURKEY

In the European system. He is ready to come to an understanding with the Powers who signed this arrangement, either to confirm its general stipulations or renew them, or substitute for them any other equitable arrangement which may be thought suitable to secure the repose of the East and the European equilibrium.

WAR MISCELLANY.

An Austrian artillery officer, writing to a Vienna paper, demonstrates the possibility of the bombardment of Paris without the previous capture of any of the forts. He states that the heaviest shells can be thrown to a distance of eight thousand yards by giving the guns an elevation of from thirty-five to forty degrees. This, he says, has been demonstrated by the bombardment of Venice.

A correspondent of the Hanover *Courier* writes the following: "When the German troops were looking for wounded troops, on the 7th of October, on the battle-field near Metz, they found large fires which had been kindled by French peasants, and into which wounded German soldiers were being thrown by them. Eighteen of the men who were caught in the perpetration of the fiendish act were executed."

The pecuniary cost entailed upon France by the present war is enormous. The Paris *Pays* publishes a rough estimate of the cost which may well make all but [illegible] desirous of peace. According to that paper, the expense of the preparations from 1868 till 1870 may be estimated at one milliard (one thousand millions), the destruction and injury of fortresses which will have to be repaired at one milliard and a half, the guns, arms, and materials of war taken by the Germans at one milliard and a half, the buildings, fields, and estates destroyed or injured by the two armies at two milliards, the total or partial ruin of manufacturers, proprietors, and commercial men at one milliard, the compensation to Germany of two milliards and a half, and the losses occasioned by the effects of all these misfortunes at two milliards. According to this rough calculation, therefore, which certainly does not exaggerate it, the money loss of France may be estimated at twelve milliards of francs, or $2,400,000,000.

There is no special complaint in relation to the supply of money for all legitimate business purposes. The natural proportion between the supply of gold and silver coin is being gradually restored—gold becoming comparatively more plenty than during the early part of the year.

The volume of trade in all departments continues greater than it has ever been heretofore in the corresponding period of the year. Usually at this late season business is almost suspended, but this season there has been thus far a good trade in all directions, the aggregate showing but a slight falling off from September and October. Considering the fact that the Wallamet river is so low as to make transportation by steamer slow and difficult, the amount of goods sold and sent into the interior is almost a wonder. The railroad is taking considerable of this freight to points along the road on the east side of the river, and for towns and villages in Linn and even Lane counties. The pleasant weather has been extremely favorable to transportation by wagons, and thus the west side interior has been a constant buyer. The rains having now set in with a prospect of continuing, we may naturally look for a dull season, at least, till the river shall be sufficiently swollen to afford easy navigation.

We have no changes to note in quotations. All stocks in this city are full, and there never were fuller or more varied assortments.

The produce market remains very much as quoted last week. There is little less buoyancy of feeling in regard to grain and flour, in consequence of the more pacific tone of the European news. It is now conceded improbable that the war will extend beyond the two powers of France and Prussia, and the views entertained a week or two ago in relation to breadstuffs are considerably modified.

Since our last weekly report the bark *Tordenskiold* sailed for England with a cargo of wheat valued at $22,527 70. The total shipments to foreign ports from November 1st to date, aggregate in value, $53,000.

The brig *Kentucky* sailed yesterday with about 400 domestic produce, for San Francisco. The *Oriflamme* also sailed yesterday with about 300 tons produce.

LAND DEPARTMENT

OREGON & CALIFORNIA RAILROAD COMPANY.

SALEM, OREGON, October 22, 1870

THE FOLLOWING STATEMENT IS MADE FOR information of all concerned.

First—Congress has granted to the Company all alternate sections of the public lands designated by odd numbers within a distance of thirty miles on each side of the railroad, excepting lands to which a preemption or homestead claim had attached prior to the withdrawal by Government of the lands coterminous with the first division of located line from East Portland to Jefferson, at 12 M. February 16, 1870. The second division of located line from Jefferson to a point six miles south of Roseburg, May, 1870, and from the last named point to the California line, 1870.

Second—Persons who have valid pre-emption or homestead claims to any tract on an odd numbered section can purchase the same from the Railroad Company at the Government price of $1 25 per acre in greenbacks, and upon very favorable terms, if they so desire, by filing an abandonment of their claim in the U. S. Land Office, blanks for which will be furnished by the Land Agent of the Company. Such purchase from the Company has these advantages over a purchase from the Government: The party can leave the land if necessary, he can sell the land or mortgage it; he is saved the payment of lawyers' or agents' fees, and expenses of witnesses to go to the Land Office to "prove up" his claim; he can get his title perfect in less time, and he can buy on credit at a low rate of interest.

Third—No sales will be made by the Company until the land is listed over to it by the United States Land Commissioner and Secretary of the Interior.

Purchasers are thus assured that the title they obtain is perfect.

NOTICE TO MARINERS.

UNITED STATES OF AMERICA—COAST OF CALifornia, Light House at Point Reyes, California.

Notice is hereby given that a REVOLVING (scintillating) WHITE LIGHT, of the first order of the system of Fresnel, will be exhibited for the first time, on the evening of December 1st, 1870, and on every evening thereafter from sunset to sunrise, from the tower recently erected on Point Reyes, California. The intervals between the flashes are five seconds each.

The tower is 2[illegible] feet [illegible] inches in height from the base to the focal plane, built of iron, painted white and is situated on the steep slope of the bluff point, about 200 yards from its extremity. The dome of the lantern is painted red, the other parts of it white.

The light is elevated 290 feet above the mean level of the sea, illuminating an arc of 360 degrees of the horizon, and should be seen, in ordinary states of the atmosphere, from the deck of a vessel 15 feet above the water, at the distance of 23½ nautical miles.

The keeper's dwelling is a two story wooden building, painted white, with green blinds, and is placed at the top of the steep slope, 215 feet higher than the base of the tower.

The geographical position of the Light House, as shown by the United States Coast Survey Chart, is lat. 37 degs. 59 mins. [illegible] North, long 123 deg 00 mins [illegible] west from Greenwich. The magnetic variation 16 degs. [illegible] east.

A tangent to the coast in an easterly direction, bears S. 74 degs. E. magnetic, and this line limits the visibility in that direction. The angle of visibility over the water is 255 degs.

The following are the magnetic bearings from the tower to prominent points, viz: To Point Bonita Light House [illegible] degs. [illegible], distant 25½ miles. To South Farallon Light House, S. 18 [illegible] degs. E. [illegible], distant 17[illegible] miles. To Point Arena Light House N. [illegible] degs. W., or N. W. [illegible] W., distant [illegible] miles.

TO THE UNFORTUNATE.

NEW REMEDIES, NEW REMEDIES

Dr. Gibbon's Dispensary,

623 KEARNEY STREET, NEAR COMMERCIAL, San Francisco. Established in 1854, for the treatment of Sexual and Seminal Diseases, such as Gonorrhœa, Gleet, Stricture, Syphilis in all its forms, Seminal Weakness, Impotency, etc. Skin Diseases (of years standing) and Ulcerated Legs successfully treated.

DR. GIBBON has the pleasure of announcing that he has returned from visiting the principal Hospitals of Europe, and has resumed practice at his Dispensary, 623 Kearny street, corner of Commercial, San Francisco, where his old patients and those requiring his services may find him.

The Doctor has spared neither time nor money in seeking out new remedies, and has returned with increased facilities for the alleviation of human suffering.

Horrible Diseases.

How many thousands of persons, both male and female, are there who are suffering out a miserable existence from the effects of secret indulgences, or from virus absorbed into the system! Look at their pallid, emaciated and disfigured faces and their broken-down constitutions, disqualifying them for the happiness of marriage or the enjoyment of life. In this horrid situation thousands suffer until death closes the scene. Let parents, guardians, friends, attend to those who are suffering with any of these horrible life-destroying maladies—see that they are cared for and cured before it be too late. Send them immediately to Doctor Gibbon, a physician who has made private diseases his especial study for years, and who is certain to cure the most inveterate cases without mercury or any injurious drugs. It is important to those who are afflicted, or to those who are interested in the welfare of their friends, to be careful of the many pretended doctors who infest all cities, publishing their skill in curing all diseases in a few days, imposing upon the public by using the names of eminent physicians from Europe and other places. Be therefore careful and make strict inquiry, or you may fall into the hands of those charlatans.

Seminal Weakness.

Seminal Emission, the consequence of self-abuse. This solitary vice, or depraved sexual indulgence, is practised by the youth of both sexes to an almost unlimited extent, producing, with unerring certainty, the following train of morbid symptoms, unless combatted by scientific medical measures, viz: Sallow countenance, dark spots under the eyes, pain in the head, ringing in the ears, noise like the rustling of leaves and rattling of chariots, uneasiness about the loins, weakness of the limbs, confused vision, blunted intellect, loss of confidence, diffidence in approaching strangers, a dislike to form new acquaintances, disposition to shun society, loss of memory, hectic flushes, pimples and various eruptions about the face, furred tongue, fetid breath, coughs, consumption, night sweats, monomania and frequent insanity. If relief be not obtained, should apply immediately, either in person or by letter, and have a cure effected by his new and scientific mode of treating this disease, which never fails of effecting a quick and radical cure. Dr. G. will give One Hundred Dollars to any person who will prove satisfactorily to him that he was cured of this complaint by either of the San Francisco quacks.

MARRIED MEN,

Or those who contemplate marriage, who are suffering under any of those fearful maladies, should not forget the sacred responsibility resting upon them nor delay to obtain immediate relief.

DOCTOR GIBBON is responsible, and will give to each patient a written instrument, binding himself to effect a radical and permanent cure, or make no charge.

CURED AT HOME.

Persons at a distance may be CURED AT HOME by addressing a letter to Dr. Gibbon, stating case, symptoms, length of time the disease has continued, and have medicines promptly forwarded, free from damage and curiosity, to any part of the country, with full and plain directions for use, for Ten Dollars, sent in registered letter or through Wells, Fargo & Co.

Address DR. J. F. GIBBON, 623 Kearney street, corner Commercial, (Private Entrance on Commercial) San Francisco. Post Office Box 1,957.

REMEMBER TO PUT BOX 1,957 ON THE LETTER. Consultations FREE.

Correspondents will please inform DR. GIBBON that they read his advertisement in the *Daily Oregonian*.

THE RIVERSIDE

HOMESTEAD ASSOCIATION!

OF

EAST PORTLAND, OREGON,

IS NOW PREPARED TO RECEIVE SUBSCRIPTIONS to their Stock.

Application for ONE HUNDRED SHARES was made before the books were opened, and a large number of Shares have been taken.

The following extracts from the *Oregonian* and *Bulletin* will give a good idea of the plan and workings of the Association, the location of the land, etc., etc.:

RIVERSIDE HOMESTEAD ASSOCIATION.

This association of whose organization we gave an account a few days since, is now ready to dispose of shares. As it is with one exception, (the Portland Homestead Association,) the pioneer organization of that kind in this city, it may be well enough to state what are its purposes, and the manner in which it is proposed to conduct its operations. The purposes of these Homestead Associations are not at all speculative in the ordinary sense of the word. They are designed for the profits of their investment upon the natural advance in the value of their lands, consequent upon the co-operation of many individuals—shareholders—and the advance on values of all surrounding lands by reason of the expansion of population and demand for room outside of, but still near, the city. The Riverside H[illegible] has a fraction over one hundred and twenty acres of land situated just south of Brooklyn on the east side of the river, the nearest boundary line being about one mile from the ferry landing at East Portland. The land lies in one strip along the Wallamet river, half a mile in length, and another strip along the Oregon and California railroad, half a mile in length, the two strips being connected near the middle by two rows of blocks (with a street between them,) the whole forming a figure not unlike the letter H. It is divided into 74 blocks, 200 feet square (with streets running at right angles) and 80 fractional lots, along the river front. The shares number 600, worth $60 per share. It will be seen that a share thus represents nearly a lot, with an undivided interest in the 80 fractional lots. The fractional shares are to be sold off at the [illegible] for the benefit of the Association, [illegible] coming in for the proceeds in proportion to the number of shares held. When all shares are taken and the Association [illegible] to do it, the choice of lots and blocks will be put up at auction to the highest bidder, the proceeds of such sales, after [illegible] the original price of shares or lots, to be divided equally among the whole number of [illegible]. Thus, if a person wants a particular lot or block, and is willing to pay $100 or $300 premium (more or less as the case may be) he pays it and takes the lot or block as his individual property, the premium being divided among the whole number of shareholders. It will be seen, therefore, that everything is co-operative, and all [illegible] No man can make a dollar out of it without also making a dollar for every other equal shareholder. There is no chance for loss, unless the property, by some chance, should [illegible] far below the first actual cost. Why this is liable to happen in the case of this particular tract of land must be judged by each for [illegible] but considering the steady and [illegible] advance on real estate in this city and [illegible] hood, and at East Portland and [illegible] the last year or two, it seems hardly [illegible] values to go back.

In the Riverside Association all [illegible] tions seem to have been taken to guard against monopolies of shares. No person is allowed to buy more than the number of shares [illegible] three blocks, or twenty-four lots, and [illegible] determining the operations of the Association [illegible] restricted in the same manner. The buyers of shares may pay down $60 per share, which will exempt them from all assessments, or they may pay $15 quarterly with an assessment of $3 per share, payable with the first installment, being liable in this latter case to another (and only one other) assessment of $3 per share. Upon the payment of the shares in full, with the [illegible] as above, the holder is entitled to his [illegible] and his proportion of all the profits accrued from all sources. No officer of the Association [illegible] any pay for services except the Secretary, who gets $25 per month; so it will be seen that the expenses must be light.

That part of the tract lying along the river is a high plateau, nearly level, about 60 to 80 feet above the water. There is no part of the front row of blocks but commands a splendid view of Portland and the river for miles up and down stream. That part of the tract lying along the railroad is, every foot of it, of the richest loam soil and adapted to gardening purposes. A beautiful little stream of pure water runs through almost the entire length of this wing of the tract, affording the means of irrigation, and power sufficient to supply pure water to every part of the whole tract. There is not a waste lot or fractional lot in the entire tract. Under all these advantages, it would seem impossible that there should be any chance of loss to shareholders. Within a year each shareholder, if he choose, may get a perfect title to as many lots as his shares may represent, or he may continue his interest, undivided, with the Association while the organization may exist.—*Oregonian.*

THE RIVERSIDE HOMESTEAD ASSOCIATION.

We have been led to make these remarks from the fact that the subject of making homesteads on the outskirts of this city and East Portland, is being thoroughly discussed here among all classes, and one homestead—the "Riverside," just south of East Portland—has already been established. The site selected is a tract of land lying a little over a mile south of the ferry landing. It is shaped like the letter H, one side of which, a half mile in length, borders on the river.

From this portion of the homestead, which is not but a trifle above the other prong of the H, but is all forty or fifty feet above the river, can be had an extensive view of Portland, East Portland, the shipping, and the Willamette river for several miles. The land is very fertile, and is partly covered with light fir timber. A tract of land just wide enough for two rows of blocks, with an avenue between them, connects the west prong of the H (which has already been described) with that on the east. This last tract of land is in a beautiful little valley, which is now under a high state of cultivation. Through its whole length runs a trout brook, the water of which is clear as crystal. With a hydraulic ram the Association proposes to have water conveyed through pipes to every portion of the homestead.—*Daily Bulletin.*

Russian Abrogation of the Treaty of Paris

A London dispatch of November 17 gives the following [illegible] of Gortschakoff's note to the European Powers which has raised such a consternation in Europe:

"Our august master cannot admit in law that treaties infringed on in several of their essential and general clauses remain obligatory in those which touch the direct interests of his Empire. His Imperial Majesty

CANNOT DEFEND ON A FICTION

Which has not withstood the test of time and be put in peril by his respect for engagements which have not been observed in their integrity. The Emperor, confiding in the sentiments of equity of the signatory Powers of the treaty of 1856 and in the consciousness they have of their own dignity, instructs you to declare that His Imperial Majesty

CANNOT LONGER CONSIDER HIMSELF BOUND

By the obligations of the treaty of the 18th and 30th of March, 1856, so far as this limits his rights of sovereignty in the Black Sea; that His Majesty considers it his right, and duty to give notice to His Majesty the Sultan, in respect to the special convention additional to said treaty which fixes the number and dimensions of ships of war which the two riparian Powers reserve the right of maintaining in the Black Sea, that he hereby gives notice of this to the Powers signing and guaranteeing the general treaty, of which this special convention constitutes an integral part; that he restores to His Majesty the Sultan full possession of his right in this respect, as he equally

RECLAIMS HIS OWN RIGHT

For himself. In discharging this duty, you will be careful to state that our august master has in view only the dignity and security of his Empire. It is by no means the purpose of His Imperial Majesty to raise the Eastern question. Upon this point he has no other wish than the preservation and consolidation of peace, and fully maintains his adhesion to the general principles of the treaty of 1856, which settled

THE POSITION OF TURKEY

In the European system. He is ready to come to an understanding with the Powers who signed this arrangement, either to confirm its general stipulations or renew them, or substitute for them any other equitable arrangement which may be thought suitable to secure the repose of the East and the European equilibrium."

WAR MISCELLANY.

An Austrian artillery officer, writing to a Vienna paper, demonstrates the possibility of the bombardment of Paris without the previous capture of any of the forts. He states that the heaviest shells can be thrown to a distance of eight thousand yards by giving the guns an elevation of from thirty-five to forty degrees. This, he says, has been demonstrated by the bombardment of Venice.

A correspondent of the Hanover *Courier* writes the following: "When the German troops were looking for wounded troops, on the 7th of October, on the battle-field near Metz, they found large fires which had been kindled by French peasants, and into which wounded German soldiers were being thrown by them. Eighteen of the men who were caught in the perpetration of the fiendish act were executed."

The pecuniary cost entailed upon France by the present war is enormous. The Paris *Pays* publishes a rough estimate of the cost which may well make all but fanatics desirous of peace. According to that paper, the expense of the preparations from 1866 till 1870 may be estimated at one milliard (one thousand millions), the destruction and injury of fortresses which will have to be repaired at one milliard and a half, the guns, arms, and materials of war taken by the Germans at one milliard and a half, the buildings, fields, and estates destroyed or injured by the two armies at two milliards, the total or partial ruin of manufacturers, proprietors, and commercial men at one milliard, the compensation to Germany of two milliards and a half, and the losses occasioned by the effects of all these misfortunes at two milliards. According to this rough calculation, therefore, which certainly does not exaggerate it, the money loss of France may be estimated at twelve milliards of francs, or $2,400,000,000.

There is no special complaint in relation to the supply of money for all legitimate business purposes. The natural proportion between the supply of gold and silver coin is being gradually restored—gold becoming comparatively more plenty than during the early part of the year.

The volume of trade in all departments continues greater than it has ever been heretofore in the corresponding period of the year. Usually at this late season business is almost suspended, but this season there has been thus far a good trade in all directions, the aggregate showing but a slight falling off from September and October. Considering the fact that the Wallamet river is so low as to make transportation by steamer slow and difficult, the amount of goods sold and sent into the interior is almost a wonder. The railroad is taking considerable of this freight to points along the road on the east side of the river, and for towns and villages in Linn and even Lane counties. The pleasant weather has been extremely favorable to transportation by wagons, and thus the west side interior has been a constant buyer. The rains having now set in with a prospect of continuing, we may naturally look for a dull season, at least, till the river shall be sufficiently swollen to afford easy navigation.

We have no changes to note in quotations. All stocks in this city are full, and there never were fuller or more varied assortments.

The produce market remains very much as quoted last week. There is little less buoyancy of feeling in regard to grain and flour, in consequence of the more pacific tone of the European news. It is now conceded improbable that the war will extend beyond the two powers of France and Prussia, and the views entertained a week or two ago in relation to breadstuffs are considerably modified.

Since our last weekly report the bark *Tordenskiold* sailed for England with a cargo of wheat valued at $22,827 70. The total shipments to foreign ports from November 1st to date, aggregate in value, $53,000.

The brig *Kentucky* sailed yesterday with about 400 domestic produce, for San Francisco. The *Oriflamme* also sailed yesterday with about 300 tons produce.

LAND DEPARTMENT OREGON & CALIFORNIA RAILROAD COMPANY.

SALEM, OREGON October 22 1870

THE FOLLOWING STATEMENT IS MADE FOR information of all concerned.

First—Congress has granted to the Company all alternate sections of the public lands designated by odd numbers within a distance of thirty miles on each side of the railroad, excepting lands to which a pre-emption or homestead claim had attached prior to the withdrawal by Government of the lands coterminous with the first division of [illegible] located line from East Portland to Jefferson at 12 M [illegible] 1870. The second division [illegible] Jefferson [illegible] six miles south of Roseburg, May 1870 and from the last [illegible] to the California line 1870.

Second—Persons who have valid pre-emption or homestead claims to any tract on an odd numbered section can purchase the same from the Railroad Company at the Government price of $1 25 per acre in greenbacks and upon very favorable terms, if they so desire, by filing an abandonment of their claim in the U S Land Office, blanks for which will be furnished by the Land Agent of the Company. Such purchase from the Company has these advantages over a purchase from the Government. The party can leave the land if necessary, he can sell the land or mortgage it, he is saved the payment of lawyers or agents fees, and expenses of witnesses to go to the Land Office to 'prove up' his claim, he can get his title perfect in less time, and he can buy on credit at a low rate of interest.

Third—No sales will be made by the Company until the land is listed over to it by the United States Land Commissioner and Secretary of the Interior.

Purchasers are thus assured that the title they obtain is perfect.

TO THE UNFORTUNATE.
NEW REMEDIES, NEW REMEDIES.
Dr Gibbon's Dispensary,
623 KEARNEY STREET NEAR COMMERCIAL
San Francisco. Established in 1854, for the treatment of Sexual and Seminal Diseases, such as Gonorrhoea, Gleet, Stricture, Syphilis in all its forms, Seminal Weakness, Impotency, etc. Skin Diseases (of years standing) and Ulcerated Legs successfully treated.

DR. GIBBON has the pleasure of announcing that he has returned from visiting the principal Hospitals of Europe and has resumed practice at his Dispensary 623 Kearny street, corner of Commercial, San Francisco, where his old patients and those requiring his services may find him.

The Doctor has spared neither time nor money to seek out new remedies, and has returned with increased facilities for the alleviation of human suffering.

Horrible Diseases.

How many thousands of persons both male and female, are there who are suffering out a miserable existence from the effects of secret indulgences, or from virus absorbed into the system! Look at their pallid, emaciated and disfigured faces and their broken-down constitutions, disqualifying them for the happiness of marriage or the enjoyment of life. In this horrid situation thousands suffer until death closes the scene. Let parents, guardians, friends attend to those who are suffering with any of these horrible life-destroying maladies—see that they are cared for and cured before it be too late. Send them immediately to Doctor Gibbon a physician who has made private diseases his special study for years and who is certain to cure the most inveterate cases without mercury or any injurious drugs. It is important to those who are afflicted, or to those who are interested in the welfare of their friends, to be careful of the many pretended doctors who infest all cities, publishing their skill in curing all diseases in a few days, imposing upon the public by using the names of eminent physicians from Europe and other places. Be therefore careful and make strict inquiry or you may fall into the hands of those charlatans.

Seminal Weakness.

Seminal Emissions, the consequence of self-abuse. This solitary vice, or depraved sexual indulgence, is practised by the youth of both sexes to an almost unlimited extent, producing, with unerring certainty, the following train of morbid symptoms, unless combatted by scientific medical measures, viz: Sallow countenance, dark spots under the eyes, pain in the head, ringing in the ears, noise like the rustling of leaves and rattling of chariots, uneasiness about the loins, weakness of the limbs, confused vision, blunted intellect, loss of confidence, diffidence in approaching strangers, a dislike to form new acquaintances, disposition to shun society, loss of memory, hectic flushes, pimples and various eruptions about the face, furred tongue, fetid breath, coughs, consumption, night sweats, monomania and frequently insanity. If relief be not obtained should apply immediately either in person or by letter, and have a cure effected by his new and scientific mode of treating this disease which never fails of effecting a quick and radical cure. Dr G will give One Hundred Dollars to any person who will prove satisfactorily to him that he was cured of his complaint by either of the San Francisco quacks.

MARRIED MEN.

Or those who contemplate marriage, who are suffering under any of these fearful maladies, should not forget the sacred responsibility resting upon them nor delay to obtain immediate relief.

DOCTOR GIBBON is responsible, and will give to each patient a written instrument, binding himself to effect a radical and permanent cure or make no charge.

CURED AT HOME.

Persons at a distance may be CURED AT HOME by addressing a letter to Dr Gibbon, stating case, symptoms, length of time the disease has continued and have medicines promptly forwarded, free from damage and curiosity, to any part of the country, with full and plain directions for use, for Ten Dollars, sent in registered letter or through Wells, Fargo & Co.

Address DR J F GIBBON 623 Kearney street corner Commercial (Private Entrance on Commercial) San Francisco. Post Office Box 1,957.

REMEMBER TO PUT BOX 1,957 ON THE LETTER. Consultations FREE.

Correspondents will please inform DR GIBBON that they read his advertisement in the *Daily Oregonian*. jy6d6ptf

THE RIVERSIDE
HOMESTEAD ASSOCIATION!
OF
EAST PORTLAND, OREGON,

IS NOW PREPARED TO RECEIVE SUBSCRIPTIONS to their Stock.

Applications for ONE HUNDRED SHARES was made before the books were opened and a large number of Shares already taken.

The following extracts from the Oregonian and Bulletin will give a good idea of the plan and workings of the Association, the location of the land, etc, etc:

RIVERSIDE HOMESTEAD ASSOCIATION.

This association of whose organization we gave an account a few days since, is now ready to dispose of shares. As it is with one exception (the Portland Homestead Association,) the pioneer organization of that kind in this city, it may be well enough to state what are its purposes and the manner in which it is proposed to conduct its operations. The purposes of these Homestead Associations are not at all speculative in the ordinary sense of the word. They are [illegible] for the profits of their investment upon the natural advance in the value of these lands consequent upon the co-operation of many individuals—shareholders—and the advance on values of all surrounding lands by reason of the growth of population and demand for room while still near the city. The Riverside Homestead Association has a fraction over one hundred and twenty acres of land situated just south of Brooklyn on the east side of the river, the northeast boundary line being about one mile from the ferry landing at East Portland. The land lies in one strip along the Wallamet river [illegible] in length and another strip along the [illegible] California railroad, half a mile in length, the two strips being connected near the middle by two rows of blocks (with a street between), the whole forming a figure not unlike the letter H. It is divided into 74 blocks, 200 feet square, with streets running at right angles, and 80 fractional lots, along the river front. The stock [illegible] number 600, worth $60 per share. It will be seen that a share thus represents nearly a lot, with an undivided interest in the 80 fractional lots. These fractional shares are to be sold off as the [illegible] for the benefit of the Association, [illegible] coming in for the proceeds in proportion to the number of shares held. When all shares are taken and the Association shall determine to do it, the choice of lots will be put up at auction to the highest bidder, the proceeds of such sales, after [illegible] the original price of shares or lots, to be divided equally among the whole [illegible]. Thus, if a person wants a particular lot or block and is willing to pay $100 or $500 [illegible] (more or less as the case may be) he pays it and takes the lot or block as his individual property, the premium being divided among the whole body of shareholders. It will be seen [illegible] that everything is co-operative, and all [illegible] mutual. No man can make a dollar out of it without also making a dollar for every other equal shareholder. There is no chance for loss, unless the property, by some chance, should [illegible] far below the first actual cost. [illegible] liable to happen in the case of this [illegible] tract of land must be judged by [illegible] but considering the steady and [illegible] advance on real estate in this city and [illegible] hood, and at East Portland and vicinity, in the last year or two, it seems hardly [illegible] values to go back.

In the Riverside Association all [illegible] tions seem to have been taken to guard against monopolies of shares. No person is allowed to buy more than the number of shares in three blocks, or twenty-four lots, and votes in determining the operations of the [illegible] restricted in the same manner. The buyers of shares may pay down $60 per share, which will exempt them from all assessments, or they may pay $15 quarterly with an [illegible] share, payable with the first instalment, being liable in this latter case to another (and only one other) assessment of $3 per share. Upon the payment of the shares in full, with the [illegible] as above, the holder is entitled to his lot and his proportion of all the profits from all sources. No officer of the Association [illegible] any pay for services except the Secretary, who gets $25 per month, so it will be seen that the expenses must be light.

That part of the tract lying along the river is a high plateau nearly level, about [illegible] feet above the water. There is no part of the front row of blocks but commands a splendid view of Portland and the river for miles up and down stream. That part of the tract lying along the railroad is, every foot of it, of the richest loamy soil and adapted to gardening purposes. A beautiful little stream of pure water runs through almost the entire length of this strip of the tract, affording the means of irrigation, and being sufficient to supply pure water to every part of the whole tract. There is not a waste lot or foot of lot in the entire tract. Under all these advantages, it would seem impossible that there should be any chance of loss to shareholders. Within a year each shareholder, if he choose, may get a perfect title to as many lots as his shares may represent or he may continue his interest, undivided, with the Association while the organization may exist.—*Oregonian.*

THE RIVERSIDE HOMESTEAD ASSOCIATION.

We have been led to make these remarks from the fact that the subject of making homesteads on the outskirts of this city and East Portland, is being thoroughly discussed here among all classes, and one by [illegible] Riverside, just south of East Portland [illegible] been established. The site selected is a tract of land lying a little over a mile south of the ferry landing. It is shaped like the letter H, one side of which, a half mile in length, borders on the river [illegible] From this portion of the homestead, which [illegible] the other prong of the H, that is [illegible] forty or fifty feet above the river, can be had an extensive view of Portland, East Portland, the shipping, and the Wallamette river for several miles. The land is very fertile and is partly covered with light fir timber. A tract of land just wide enough for two rows of blocks, with an avenue between them connects the main prong of the H (which has already been described) with the [illegible]. The last tract of land is in a beautiful little valley which is now under a high state of cultivation. Through its whole length runs a trout brook, the water of which is clear as crystal. With a hydraulic ram the Association proposes to have water conveyed through pipes to every portion of the homestead.—*Daily Bulletin.*
